*You've never seen anything quite like it...*

*Impressive murals from photographs or original art create a lasting impact in reception areas, bars, restaurants and retail outlets*

### **Something special**

We take photos, paintings or drawings and using the latest computer software combined with our artistic expertise and design talent, produce vibrant, individual ceramic tile murals & plaques that are simply stunning to look at. Produced in a variety of sizes, these durable tiles can be utilised in living areas, kitchens, bathrooms (shower cubicles or splashbacks), in other words, most places your fancy takes you. The 108 tile, 6ft x 4½ft mural opposite was produced from a customer's faded, scratched antique photo only 8" x 6" in size! We can produce tiles from original art, photos, slides, negatives – in fact, just about anything that can be transferred to our computer software.

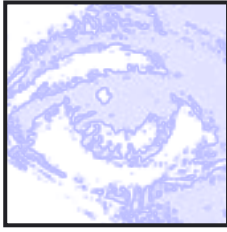

**To see how Elmsley Studios can enhance your living space call 01728 668672**

*Our range of botanical drawings make beautiful tile panels and can be adapted to suit a variety of locations*

*Our tailored panels will make any kitchen special*

Tile detail 85% full size

Our tailored panels will make any room special

Using an old family photograph as the basis for a demountable tiled panel, the back of this Aga is transformed into a dramatic focal point for this traditional dining-kitchen.

By being mounted on an independent back-panel the mural can follow the owner to another home and another location.

*This panel size 4½ ft x 3ft (54 x 6 inch tiles)*

As well as imaging from photographs and original artwork, we can design and produce bespoke imaged tiles and panels from our extensive range of historical botanical drawings - a selection of which is shown overleaf.

Detail from panel shown above

A selection from our extensive range of historical botanical drawings.  
These are adapted, styled and sized to your requirements.

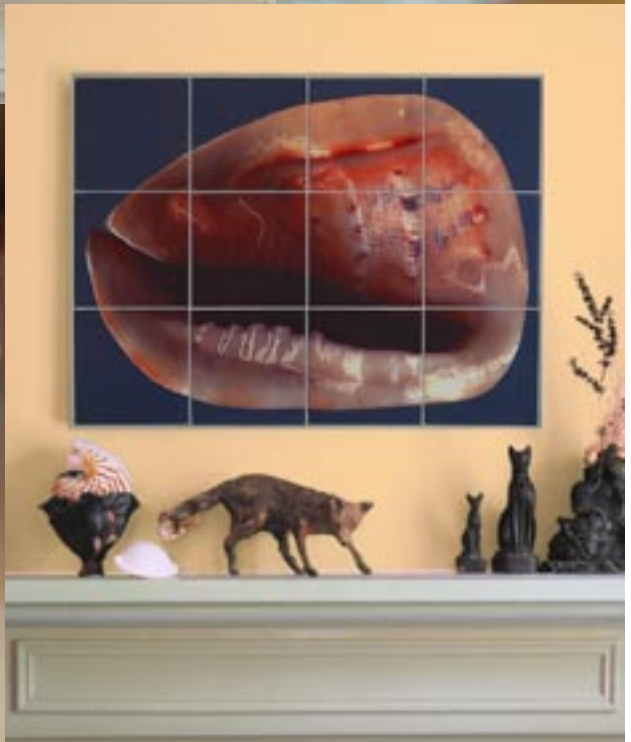

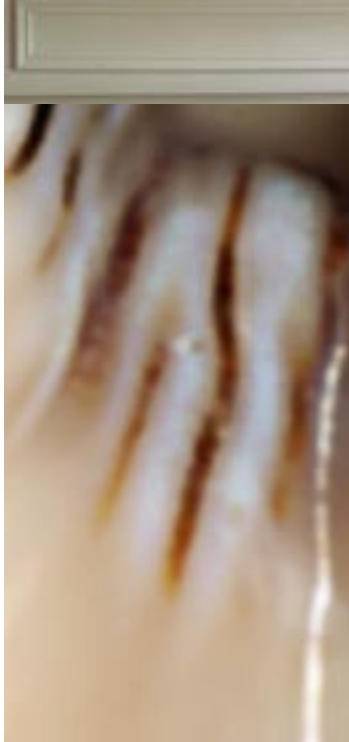

12 panel tiled plaque 60cm x 45cm for client's bathroom. Image from our exclusive 'Exotic Shell' series

*Overleaf* More plaques from our 'Exotic Shell' series. These can be scaled larger or smaller and can be directly tiled to walls to make exciting shower areas or bathroom backsplashes.

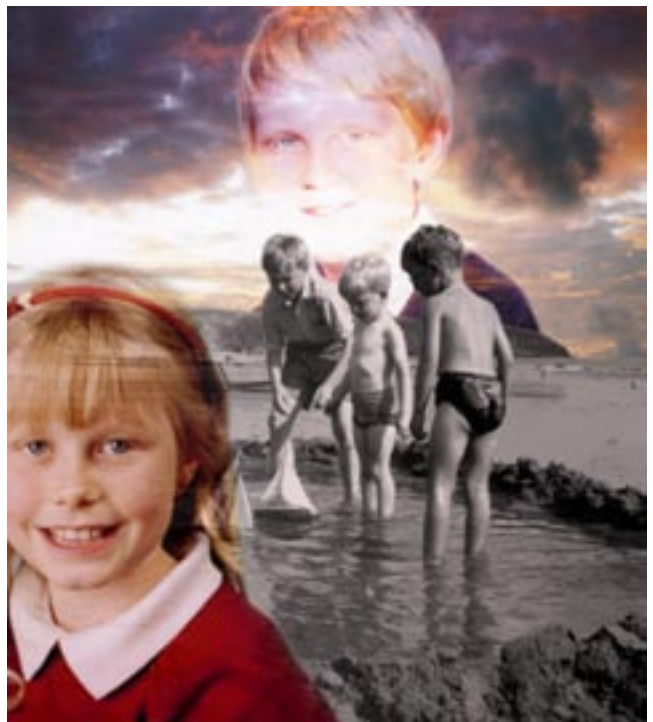

Our ability to produce quality photorealistic imaging on tiles from client's material can be seen on this privately commissioned 60cm sq panel  
(original photo print c1950's 7.5cm sq)

Here the same black & white 1950's holiday photo above was combined with the client's grandchildren's school photos to create a nostalgic statement about the past and present.

The resulting image was imprinted on a single tile and framed.

Our high-quality professional scanners pick up the tiniest details

Detail from scan

Etchings and old photograph quality postcards make fascinating subjects ...

Above Ceramic tile reproduced from a small 19th century engraving

“Yoxford, Suffolk from the South Lodge of Cockfield Hall”

(Drawn by E Hafsell, Engraved by D Buckle) - by kind permission of Mr & Mrs J Craig

Right Ceramic tile reproduced  
from an old postcard

“The PRIM Methodist Chapel  
Yoxford” c1906

- by kind permission of Mr & Mrs D Tallis

*Below Detail*

As do original works of art (*copyright permitting, of course*)

Above Original oil painting, in the Dutch style, scanned, enlarged five-fold to make this attractive panel - size 100cm x 75cm

- Elmsley 'Original' Art Series

Left Tiled panel from an original gouache and procion dye painting by Janine Berry

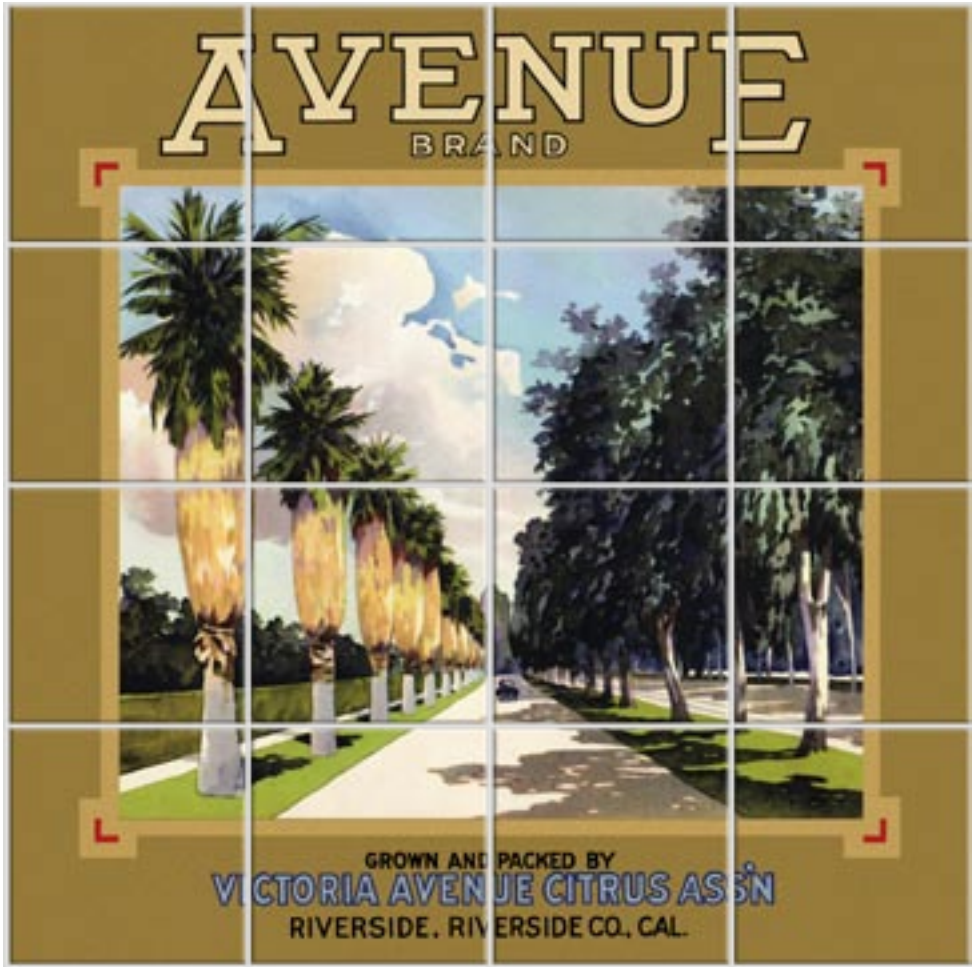

- Elmsley 'Original' Art Series

Right Another original painting by Janine Berry for Elmsley Studios

- Elmsley 'Original' Art Series

Something a little bit different again – for a kitchen maybe ...

Above This panel is from our 'Americana' Series.

Based on our collection of North American Fruit-Crate labels, these images have great presence and represent the fine talents of the artists who created these evocative labels in the first half of the 20th century.

...or imagine this image as a tiled backsplash for a bath

...or this holiday photograph

...or perhaps a memorable event captured on camera

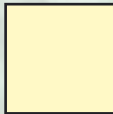

Image: C. Shelton
